

# Working Student Software Development (m/f/d)

We're hiring at our headquarters in  
Böblingen!

## Your New Career

Are you eager to immerse yourself in the fast-paced world of technology? Do you aspire to gain valuable insights into cutting-edge solutions while working alongside a vibrant and innovative team? We're seeking a motivated student to join our dynamic workforce. If you're ready to take your first steps into the tech world and expand your professional horizons, we want to hear from you!

## Your Responsibilities

- You will work in our headquarter in Böblingen with prototypes of our next-generation fiber optic measurement device.
- Support a team of experienced engineers in the development of our production and calibration software.
- Integrate new software modules and hardware devices into an existing software solution.
- Work closely together with both R&D and production department to gather requirements and understand the operational context of the software.
- Familiarizing yourself with our processes and help us to think "out of the box".

## Your Profile

- You have solid programming skills in C#/.NET 8, with a preference for experience in WPF.
- Demonstrate a keen interest in new technologies and a proactive approach to problem-solving.
- Exhibit a hands-on mentality and comfort with working on computers with open casings.
- Show commitment and the ability to work effectively in a team environment.
- Currently enrolled in a technical bachelor's or master's degree program in computer science, physics, mathematics, or a related field.
- Knowledge of Python and SQL is a plus.
- You have good communication and presentation skills in German (C1) and/or English (C1).

## Start and duration

- As soon as possible
- 3-6 months

## Our Company

AP Sensing is a fast growing, global provider of fiber optic-based sensor technology. Our solutions can be found in offshore wind parks, Singapore's metro systems, the Eurotunnel and in many other important infrastructures around the world. We combine a 35-year Hewlett-Packard (HP) heritage with the spirit and enthusiasm of a start up. Become an empowered employee and join our team of passionate, innovative people.

## Our Offer

- Flexibility: Flexible working hours
- Experience: Practical experience in software development
- Team: A motivated and friendly team that supports you
- Location: only a 2-minute walk from the S-Bahn station with a direct connection to Stuttgart
